[Download Connectify Hotspot 2019](#)

The screenshot displays the Connectify Hotspot PRO application window. The title bar reads "Connectify Hotspot PRO". The menu bar includes "Settings", "Tools", and "Help". The "Settings" menu is open, showing options: "Startup Options", "Display", "Advanced", and "Stealth Mode". The "Advanced" sub-menu is expanded, listing several checked options: "Fling File Transfers", "Network Peer Scanning", "NXDomain Handling", "UPnP Server", "UPnP Forwarding", "Pause On No Internet", "Allow Sleep while Running", "Disable Adapter Power Management", "Route all to gateway", and "Set DHCP Range".

Other visible settings include:

- Connectify-me**: momuzyk2
- Password**: momuzyk2
- Internet to Share**: Dispatch
- Advanced Settings**: A button to expand more options.

Buttons for "Generate Password" and "Hide" are visible. A "Start Hotspot" button is located at the bottom of the main interface. A footer section titled "RECENT BLOG POSTS" contains two links: "Last Chance! 40% OFF for Winter Travel" and "Deploying a Better Switchboard with Docker", accompanied by a RSS icon.
